

Company Profile

About Our Company

A Brief Introduction of our Company

Over a period of time, Era Packaging has earned an irreproachable reputation defining the contours of the 'Packaging Industry. We started off this journey in 2019 but our founders have had 30 years of experience in the Fibre Drum/Packaging industry. We stand committed to improving the quality of life through our wide range of products and services. Pursuing our passion we have adopted 'continuous improvement' as a motto that shapes our plans and actions.

Vision

WE STRIVE TO CREATE OPPORTUNITIES, GROWTH AND IMPACT WHEREVER & WHENEVER POSSIBLE

Mission

TO BRING OUT THE BEST, IN US AND OUR CUSTOMERS.

Our mission is to stay committed to our promised quality which helps us in bringing out our best as well as our customer's best. By doing so, we not only build confidence but also relationships which are built on strong foundations.

PRODUCT OVERVIEW

01 FIBRE DRUM

The company are manufacturing Paper Based Fiber Drum is made from High Quality Paper for Paper Body, Hot Pressed Plywood for Top & Bottom & quality Cold Rold Steel strips

02 PAPER CORE

The company makes quality products as per the recommended specifications of paper, Bopp selfadhesive tape, Vinyl flooring, PVC film and etc. Our sister companies can manufacture Tube/Core from 1" to 20" inner dia with a thickness from 1mm to 20mm.

03 COMPOSITE CONTAINER

A composite container is a canister or a container made from more than one constituent material in order to enhances the maximize useful properties and minimize their weaknesses, generally consisting of paper, boards and Kraft papers with metal of plastic ends. It is also called a 'combican'. Currently this is made at SBPL Ropar, Punjab for 100 pipers. With latest technology and quality that we can fulfill, we are able to manufacture some of the finest Composite containers in india.

04 POY TUBE

Tubes made with this paper provide High vertical and horizontal strength of cores for safe carrying of material. MF surface for proper adhesive application and lamination up to 85% Moisture 5.5 to 6% most suitable for Paper tube application. Better tensile strength for running ability in the conversation process.

OUR TEAM COMPRISES OF :-

TECHNICIANS

- TECHNICAL EXPERIENCE AND KNOW HOW OF MANUFACTURING QUALITY PRODUCTS
